Notes: _____

Estimated cost of treatment per month**

ORAL:	Initiate:	CBD dominant oils: R1150 – R8400 per month*
	Intermediate:	Balanced 1:1 – R1250 ± per month*
	Experienced:	THC dominant oils: R1250 ± per month*
INHALATION:	Inhalation extract:	R450 starting ± monthly (Vaporiser device cost R1500)*
	Inhalation flower:	R1200 starting ± monthly (Flower vaporiser device cost R2500)*

Dosing Medicinal Cannabis

START LOW:	If the patient has no prior familiarity with cannabis or cannabinoids, you are advised to begin at a very low dose and stop if any undesirable side effects occur.
GO SLOW:	The dose should be increased slowly, only if required, to achieve therapeutic effect with minimum side effects.

*View Introcann portal for updates.
 **Cost depends on effective dose as achieved through titration.
