

ORGANIC SUGAR BUSH™

SATIVA

ORGANIC SUGAR BUSH™

SATIVA

Certified organically grown in living soil, this trichome-covered high-THC Sativa gets its Sugar Bush name from the maple tree forests in Quebec - the source of maple syrup that is used to nurture the soil it grows in. The end result, a strain that is full-bodied, and full of aroma - bringing with it a fruity, skunk scent that is reminiscent of ripe melon and passionfruit.

THC: 22-28% **CBD:** 0-1%

TERPENES: 2-4%

Primary Terpenes:

Available in 3.5 g

Aroma: Skunk & Melon

Our **CleanCraft™** methods ensure each bud in our green glass jars are of the highest possible quality - rich in terpenes, flavour, and bursting with aroma.

Certified Organically Grown:

All TGO cannabis is organically grown, and certified by Pro-Cert. Our Pro-Cert certification ensures that what we grow meets strict guidelines that are in line with the Organic Federation of Canada. We'll settle for nothing less.

Grown in Living Soil:

Our cannabis is grown in living soil. A living, thriving ecosystem full of beneficial microbes, enzymes, and minerals. Our ingredients are sourced from all over Canada, including glacial rock dust, maple syrup, and crab meal. Our unique living soil delivers the perfect environment for our plant roots to thrive.

Hand Selected & Trimmed

Our harvesting team hand-selects only the top colas from our plants, reserved for our TGO glass jars. Each bud is then delicately hand-finished to preserve its natural shape and trichome integrity.

Natural Elements; Sunlight & Rainwater:

Our hybrid greenhouse is designed to bring the best of nature indoors. A combination of sun and full-spectrum LED light gives our greenhouse the versatility it needs to deliver quality flower. We only use naturally purified rainwater to keep our plants hydrated.

Slow-dried & Cured

Our organic whole flower dries at a cool temperature for 10 days as the cannabinoids continue to develop after being harvested. Our award-winning glass jars include an Integra Boost 2-Way Humidity Control pack, allowing our flower to further build its flavour over time.

If you have any questions on TGO products or require merchandising support, don't hesitate to reach out to your Velvet Management sales rep or to TGO directly.
